

Skin

The Black Box Revelation

Where are you going?
A walk in the dark
Her eyes are glowing
Tweaked to see bright

Cuz we walk
Love's path with no sight
The distance in our minds
Her skin right next to mine

Keep on walking
Soothing does hide
I smell her roses
The breath of my life

Cuz we walk
Love's path with no sight
The distance in our minds
Her skin right next to mine

The night owl's moaning
Lost to sleep as long as I
Our eyes now glowing
Tweaked to see bright

Cuz we walk
Love's path with no sight
The distance in our minds
Her skin right next to mine
