## **Black Moon Creeping**

## **The Black Crowes**

Sleeping eyes sleep awhile And let me get to know your language If I believe all I see I would hate to be around for the dawn Sleeping eyes stay awhile And give me some cause to rejoice A parody of the scene Where my three wishes were granted to me

What you got buried? In your backyard What secret do you sleep with when the black moon come

Sleeping eyes please come clean I'm not giving you the third degree When you live with no man's time Ain't it hard to find some peace of mind Sleeping eyes don't you cry And don't pretend this is not an ending Your history yes it seems Has been swept out with the leaves
