

# Last Time Again

The Black Crowes

I blacked out my window  
Just to honor your sun  
You filled my mind with trouble  
You smile as if you never know none

You sprinkle me with powder  
And you show me powers divine  
With one hand up in heaven, heaven baby  
And one finger right in my mind

Feelin come around around again  
You know it comes around again  
Feel it comin down again  
I'm ok

Said it before  
It's goodnight my friend  
But this is the last time again  
I was not so sure  
But I found out my friend  
Its always the last time  
Its always the last time again

I crackle the fire  
Just to burn you like the flame  
And to everybody and everyone around you  
That wont tell you the truth to your face  
No they don't

Feeling comes around around again  
The feeling comes around again  
I know its wrong, I'm wrong

I said it before  
Just now my friend  
Its always the last time again  
Could not do it  
I dont see eye to eye  
Its always the last time  
Its always the last time

I said it before  
And I will not again  
Its always the last time again

I found out for sure  
Before I lost my way  
Its always the last time again

But you knock on my door  
You dont live here no more  
Its always the last time again

Tell you whats more  
Can't do what pains me baby  
Its always the last time again  
Its always the last time again
