Predictable

The Black Crowes

You dug yourself out of The hole you were in Heard you got a new job Selling half of nothing

Why don't you come to town Ain't seen you hanging round I want to hear your new scheme Fill me in on your pipe dream

You're so predictable You're all the same You're so predictable You're all the same

Whatever became of all these years You're like dust you're so dry Who's wet behind their ears

Why don't you come to town Ain't seen you hangin' round I'm going to hear your new scheme Fill me up with your pipe dreams

You're so predictable You're all the same You're so predictable You're all the same

You're so predictable
You're all the same
Oh, oh you're so predictable, predictable
You're all the same
All the same
You're so predictable
You know you're all the same
Oh, you're so predictable
You're all the same
