

Sleepyheads

The Black Crowes

Get up,
All my little sleepyheads
Rub your eyes,
Get out of bed.
But Don't stop dreaming
Get up,
Say good morning to the sun
It is there for everyone
And don't stop dreaming, stop dreaming
No No No
Well, its another lovely day, let's take our daydreams out to p
lay
Let's keep the sandman far away, today he's not invited.
And I never felt this way, I was alone.
And now it's a bright and sunny day.
And everybody's singing, and gone is the rain behind my eyes
Give thanks and blessing, come join me in blue skies
It can turn your whole world upside down
Goodnight, all my little sleepyheads,
Remember the wise eye said
Said don't stop dreaming
Lights out, be quiet as a mouse, try to keep the bedbugs out
And never stop dreaming, stop dreaming
Well, its another lovely day, let's take our daydreams out to p
lay
Let's keep the sandman far away, today he's not invited.
Cause I never felt this way, I was alone.
And now it's a bright and sunny day.
And everybody's singing, and gone is the rain behind my eyes
Give thanks and blessing, come join me in blue skies
It can turn your whole wold upside down
Well, its another lovely day, let's take our daydreams out to p
lay
Let's keep the sandman far away, today he's not invited.
Cause I never felt this way, I was alone.
And now it's a bright and sunny day.
And Eveybodys singing, and gone is the rain behind my eyes
Give thanks and blessing, come join me in blue skies
It can turn your whole wold upside down
