

## Walk Believer Walk

The Black Crowes

Go down go down you stranger  
there's something waiting for you  
Angels, dolls and honey  
Temples and harpoons  
You want your main line jesus  
Your want your diamond  
You want to pull the trigger  
And kill the autumn home

So walk believer walk  
Straight into the sun  
Walk believer walk  
Your word ain't ever done

Pray on pray on my brother  
Nows the time for due  
Black shadow come a creeping  
Take the soul right out of you  
Can you feel the demons puling  
Can you hear the devils sing  
Can you taste the poison in your mouth  
Feel the weight of his chains

So walk believer walk  
Straight into the sun  
Walk believer walk  
Your word ain't ever done

aaa a a a aaa aaa aaa a a a oo o o aa

So walk believer walk  
Straight into the sun  
Walk believer walk  
Your word aint ever done
