Walk Believer Walk

The Black Crowes

Go down go down you stranger there's something waiting for you Angels, dolls and honey Temples and harpoons
You want your main line jesus
Your want your diamond
You want to pull the trigger
And kill the autumn home

So walk believer walk
Straight into the sun
Walk believer walk
Your word ain't ever done

Pray on pray on my brother

Nows the time for due

Black shadow come a creeping

Take the soul right out of you

Can you feel the demons puling

Can you hear the devils sing

Can you taste the poison in your mouth

Feel the weight of his chains

So walk believer walk Straight into the sun Walk believer walk Your word ain't ever done

aaa a a aaa aaa aaa a a oo o o aa

So walk believer walk Straight into the sun Walk believer walk Your word aint ever done
