

# Wee Who See the Deep

The Black Crowes

Put forever in your mind  
Let go of space and time  
Yeah, say it is we who see the deep  
It is we that the less earn teeth

Do you even know this place  
Nowhere is over  
To find our way back to grace  
Nowhere is nothing at all

Well, I have come from a hurricane  
A messenger that the temp is praying  
Eyes full of sun, hands full of sea  
Anyone with the night just to help me see, yeah

Do you even know this place  
Nowhere is over  
To find our way back to grace  
Nowhere is nothing at all

I said nowhere is nothing at all  
Yeah, I said nowhere is nothing at all  
I said nowhere is nothing at all  
Yeah, I said nowhere is nothing at all

Nowhere is nothing at all  
Well, I said nowhere, nowhere, nowhere  
Nowhere's, nowhere is nothing at all, yeah  
I said no, said that nothing at all  
I said nowhere, nowhere, nowhere
