

Wiser Time

The Black Crowes

No time left now for shame
Horizon behind me, no more pain
Windswept stars blink and smile
Another song, another mile
You read the line every time
Ask me about crime in my mind
Ask me why another read song
Funny but I bet you never left home

On a good day, it's not every day
We can part the sea
And on a bad day, it's not every day
Glory beyond our reach
Seconds until sunrise
Tired but wiser for the time
Lightning 30 miles away
Three thousand more in two days
