Until It Comes Again

The Black Ghosts

Until it comes again Until it comes again

it used to be it was all I want, my only care nothing else had a single part to play in my head but now times led my mind astray, something was changed along t he way and no amount of tears can bring it back round til it comes aga in

so maybe we should pretend we're who we want to be and forget who we really are and where we really be cause I've no time to start again but I won't to a bitter end can we keep it down til its back round til it comes again

until it comes again, until it comes again

one more time to take the test to make it real or one more nail in this relationship make it impossible to heal on the good ship hope we sail but the stars above say the wind will fail can we keep afloat until its back round until it comes again

until it comes again, until it comes again until it comes again, until it comes again
