

Forget my heart

The Black Heart Procession

Look what you've done to me
Look at my tears
Forget my heart
No reason to lie to me it can't get any worse
Every little thing that you do to me
Every single day that goes by
Every inch and every mile
Everything that I do takes me away from you
Look what I've done to you
Look at your tears
I forgot your heart No reason to lie to you
It can't get any worse
Every little thing that I do to you
Everything I say breaks your heart
I guess I should have known
I guess I have no choice
I guess I lost your heart
I guess this pain won't stop
I guess I killed my friend
I guess this is the end
Throwing it away We're throwing this all away
