

Fire Walk with Me

The Black Keys

Fire walk with me
Tight as I can be
Bruise my weary soul
Flames now take control

Fire light the way
Burn the night to day
Bake in afterglow
Everywhere I go

You're on fire
Higher and higher
Living in a fever dream
Feeling that fire walk with me

Fire in the sky
Burning ball of light
The heavens are ablaze
Flames are like a maze

You're on fire
Higher and higher
Living in a fever dream
Feeling that fire walk with me

You're on fire
Higher and higher
Living in a fever dream
Feeling that fire
Give up every thought
Feel that fire walk with me
