Fire Walk with Me

The Black Keys

Fire walk with me Tight as I can be Bruise my weary soul Flames now take control

Fire light the way Burn the night to day Bake in afterglow Everywhere I go

You're on fire Higher and higher Living in a fever dream Feeling that fire walk with me

Fire in the sky Burning ball of light The heavens are ablaze Flames are like a maze

You're on fire Higher and higher Living in a fever dream Feeling that fire walk with me

You're on fire Higher and higher Living in a fever dream Feeling that fire Give up every thought Feel that fire walk with me
