## **Run Me Down**

## **The Black Keys**

Run me down in the winter, Run me down spring, Got to the place Can't do a goddamn thing But after a while, You ain't gonna run me down anymore

Run me down in the city, Run me down on the farm, Run me with your eyes And your heavy charm But after a while, You ain't gonna run me down anymore

I do for you, lord do for me, You run me down, where you want me to be But after a while, You ain't gonna run me down anymore
