

Under the Gun

The Black Keys

Leaving now all I have is all I own
I'm hoping it's all I read
Ran me down and the love was like a rolling stone
Only way I was to leave

On the road but I'm on the run
Ain't no fun when you're running the gun
We made a deal but the dealer run
And I'm under the gun
Call me at sun down
I'm under the gun now

My darkest thought
Locked inside my lonely room
Counting the cracks on the wall
Pretty flowers, I still smell the sweet perfume
And now I make a mess of it all

On the road but I'm on the run
Ain't no fun when you're running the gun
We made a deal but the dealer run
And I'm under the gun
Call me at sun down
I'm under the gun now

I drive the interstate
Rode just like thunder should
I'd get out from under if I could
Call me at sun down
I'm under the gun now

On the road but I'm on the run
Ain't no fun when you're running the gun
We made a deal but the dealer run
And I'm under the gun
Call me at sun down
I'm under the gun now

On the road but I'm on the run
Ain't no fun when you're running the gun
We made a deal but the dealer run
And I'm under the gun
Call me at sun down
I'm under the gun now

Call me at sun down
I'm under the gun now
