

# Walk Across the Water

The Black Keys

I can barely wait to get a hold on you  
I wanna feel the one who has my love  
Always come a runnin' when you want me to  
I got no one else above  
Only one I'm dreaming of

Your sugar coated love has got a hold on me  
You know you do it to me every time  
Got me seeing colors that I never could see  
Now I got a one track mind

Rivers run into the ocean  
Oceans run into the blue  
Look around at all the commotion  
Then I walk across the water for you

Climb around forever in the summer time  
Down around the deep blue sea  
Me and you together for the longest ride  
From here to eternity  
Feels just like a dream to me

Rivers run into the ocean  
Oceans run into the blue  
Look around at all the commotion  
Then I walk across the water for you  
Then I walk across the water for you
