

## Mirrors And Cameras

The Black Maria

Burn away the best part of everything  
And strip away all that I am,  
I dispose of the man,  
We won't make it so why should we stop it?  
I wake up again in someone else's skin,  
This body acts like a chain and I can't get out of it...  
We won't make it so why should we stop it?

Burn away the best part of everything,  
And strip away all that I am,  
I dispose of the man,  
We won't make it so why should we stop it?  
I wake up again though I was never really here,  
I'm a shell for a ghost and a grave for a man,  
We won't make it so why should we stop it?

Burn away the best part of everything,  
And strip away all that I am,  
I dispose of the man,  
We won't make it so why should we stop it?  
Mirrors and cameras,  
I reach for razor blades,  
I want to cut myself,  
I don't like what I see,  
Mirrors and cameras,  
I reach for razor blades,  
I want to cut myself,  
I don't like what I see

We won't make it so why should we stop it?  
Burn away the best part of everything  
And strip away all that I am,  
I dispose of the man,

We won't make it so why should we stop it?  
Mirrors and cameras,  
Mirrors and cameras,  
Mirrors and cameras...
