## **Mirrors And Cameras**

**The Black Maria** 

Burn away the best part of everything And strip away all that I am, I dispose of the man, We won't make it so why should we stop it? I wake up again in someone else's skin, This body acts like a chain and I can't get out of it... We won't make it so why should we stop it?

Burn away the best part of everything, And strip away all that I am, I dispose of the man, We won't make it so why should we stop it? I wake up again though I was never really here, I'm a shell for a ghost and a grave for a man, We won't make it so why should we stop it?

Burn away the best part of everything, And strip away all that I am, I dispose of the man, We won't make it so why should we stop it? Mirrors and cameras, I reach for razor blades, I want to cut myself, I don't like what I see, Mirrors and cameras, I reach for razor blades, I want to cut myself, I don't like what I see

We won't make it so why should we stop it? Burn away the best part of everything And strip away all that I am, I dispose of the man,

We won't make it so why should we stop it? Mirrors and cameras, Mirrors and cameras, Mirrors and cameras...
