

# Come On, Come On

The Black Sorrows

Everytime I think  
I got it all going  
You turn it up  
And you turn it all around  
Hey babe, let's get it started  
The chains of love aren't going to drag you down

You're a walkin' dream  
There's no doubt about it  
Young blood  
Rushin' through to my soul  
Out on the street  
There talkin' about it  
There must be some way  
Momma we can roll

So, Come on, come on  
Let's get it started  
You know you got it  
Babe, you make me feel right  
Come on, come on  
Don't try to fight  
Let's get it started tonight

Now I ain't no Rudolph Valentino  
I'm just a Johnny  
From the street  
But you've got that lovin'  
Baby sure gets me going  
And I ain't too proud  
To get down and beg

So, Come on, come on  
Let's get it started  
You know you got it  
Babe, you make me feel right  
Come on, come on  
Don't try to fight  
You light me up so light me up tonight

Wild heart  
I see  
One shot  
Covers me

Just a little bit  
I'm holdin' on tight  
A little lovin'  
Comin' on through the night

Everytime I think  
I got it all going  
You turn it up  
And you turn it all around  
Hey babe, let's get it started  
Can't wait no longer, I need you right now  
You're a walkin' dream

There's no doubt about it  
The chains of love  
Aren't going to drag you down  
Out on the street  
There talkin' about it  
There must be some way  
Momma we can roll

So, Come on, come on  
Let's get it started  
You know you got it  
Babe, you make me feel right  
Come on, come on  
Don't try to fight  
Oh light it up, you light me up

So, Come on, come on  
Let's get it started  
You know you got it  
You make me feel right

Come on, come on  
Don't try to fight  
Let's get it started tonight
