

# I Know You Are, But What Am I

The Blackout

I wanna taste those lips, why don't you shake those hips?  
I wanna taste those lips, why don't you shake those hips?  
I wanna taste those lips, why don't you shake those hips?  
I wanna taste those lips, why don't you shake those hips?

Come girl, pull your chair up next to mine  
I'm not gonna believe you  
And make sure you don't forget that smile  
Why don't you come and find me?  
So come tell me, what's your story?  
You better stay away from him  
I've got time to kill, so entertain me

You look so fucking good to me  
You look good enough to eat  
You look so fucking good to me

Your eyes make me feel weak  
I close the door  
Without you here  
I left you begging for more  
Your eyes make me feel weak  
I close the door  
Without you here  
I left you begging for more

Come girl, pull your chair up next to mine  
I'm not gonna believe you  
And make sure you don't forget that smile  
Why don't you come and find me?  
So come tell me, what's your story?  
He'd better stay away from you  
I've got time to kill, so entertain me

You look so fucking good to me  
You look good enough to eat  
You look so fucking good to me

Your eyes make me feel weak  
I close the door  
Without you here  
I left you begging for more  
Your eyes make me feel weak  
I close the door  
Without you here  
I left you begging for more

I wanna taste those lips, why don't you shake those hips?  
I wanna taste those lips, why don't you shake those hips?  
I wanna taste those lips, why don't you shake those hips?  
I wanna taste those lips, why don't you shake those hips?  
I wanna taste those lips, why don't you shake those hips?  
I wanna taste those lips, why don't you shake those hips?  
I wanna taste those lips, why don't you shake those hips?  
I wanna taste those lips!

Your eyes make me feel weak

I close the door  
Without you here  
I left you begging for more  
Your eyes make me feel weak  
I close the door  
Without you here  
I left you begging for more

This ghost is you, walking away  
This ghost is you
