

She Is Macho

The Blackout

Under the moonlight, it's too dark to see,
To spend the night, along with me
Shoulder to shoulder, we rob the ground
The night grows old, the reasons found
To the ground

Stick to the path is what they said, don't take one more step
Otherwise you're dead
stick to the path is what they said, don't take one more step
Otherwise you're dead

We hunt in a pack, as we roam the streets
And will attack, in a heart beat
For my actions, I'm to blame
The attraction, has made me change
I am not the same

Stick to the path is what they said, don't take one more step
Otherwise you're dead
stick to the path is what they said, don't take one more step
Otherwise you're dead

Woo!

I don't know how to tell you but I have to somehow
I used to be a werewolf but I'm alright now
I don't know how to tell you but I have to somehow
I used to be a werewolf but I'm alright now
But I'm alright now

Stick to the path is what they said, don't take one more step
Otherwise you're dead
Stick to the path is what they said, don't take one more step
Otherwise you're dead

Just like the rest
Otherwise you're dead
Just like the rest
Otherwise you're dead
Just like the rest
Otherwise you're dead
Just like the rest
Otherwise you're dead
