## **Tops Off Party!**

## **The Blackout**

I feel the ropes are getting tighter, it's not a bad idea These chains will never hold me down, so lets just make this cl ear So step it up and make me fight it, and I'll scare you all the time Don't stop, just carry on and I know I'll be just fine

Love you and leave you's what I'll do One day I'm coming, not a clue

You've tired me out, by tying me down, Woah, woah You've tired me out, by tying me down, Woah, woah

You feel my hands are getting tighter, getting ever nearer Scream when you've had enough, I couldn't see this clearer Your life is slipping through my fingers Push you up against the wall Do I stop or just carry on? Will you ever take it off?

Love you and leave you's what I'll do One day I'm coming, not a clue

You've tired me out, by tying me down, Woah, woah You've tired me out, by tying me down, Woah, woah

I'm so close, scream for me I'm so close, scream for me I'm so close, scream for me

You've tired me out, by tying me down, Woah, woah You've tired me out, by tying me down, Woah, woah You've tired me out, by tying me down Tying me down Tying me down
