

# Wolves

## The Blackout

You took it all when you fell in love with your lies  
Didn't think that you'd fall so far  
You sold it all to take the throne for your fucking pride  
You gotta fake it all

We are the saving grace  
Taking back what was almost lost  
You gotta know  
What's waiting to swallow you whole

Hey, Hey  
You threw me to the wolves  
Hey, Hey  
But now I'm leader of the pack  
Hey, Hey  
And now I'm bringing you down  
(We'll take it, We'll take it)  
(We'll take it all away)

It said it all when I saw the fear in your eyes  
Didn't think that you'd run so far  
You're all alone out in the cold waiting to die  
You gotta fake it all

We are the saving grace  
Taking back what was almost lost  
You gotta know  
What's waiting to swallow you whole

Hey, Hey  
You threw me to the wolves  
Hey, Hey  
But now I'm leader of the pack  
Hey, Hey  
And now I'm bringing you down  
(We'll take it, We'll take it)  
(We'll take it all away)

You know I taste it  
Flow in the night  
I feel your breath when you whisper your lies  
I feel you fading  
Starting to slow  
I hear your feet start to stumble and fall  
I see your face when you try and hide  
I smell the fear in the air like a fire  
The sweet embrace, yeah, when you decide  
To give up running and surrender your life

Hey, Hey  
You threw me to the wolves  
Hey, Hey  
But now I'm leader of the pack  
Hey, Hey  
And now I'm bringing you down  
(We'll take it, We'll take it)  
(We'll take it all away)

Hey, Hey  
You threw me to the wolves  
Hey, Hey  
But now I'm leader of the pack  
Hey, Hey  
And now I'm bringing you down  
(We'll take it, We'll take it)  
(We'll take it all away)

Hey, Hey  
Hey, Hey  
Hey, Hey  
We'll take it all away
