

## Auto Cannibalism

### The Blood

locked in a camp of perversion  
the allotment is not enough

many were killed and demoralised  
deliver found pictures of horror

some corpses had several bite marks  
up and down the length of both arms  
gods of war - auto cannibalism -  
demonised war - self dissection

in her frenzy - a woman sat in front of her hut  
taking bites cut of her own arms ever and ever again

into a big pot - a soup of human flesh  
was their own delight - in this camp of putrefaction  
and it's true - that was first  
reported case - of auto cannibalism
