

Full moon

The Bloody Irish Boys

I remember when I was about 12 years old
I said daddy wont you give me a cold one
He got me my beer and he got me my rum
Back in those days we had some fun yeah
Sitting in the car with the radio on
Wed be drinking till the early morn
But now those days are long gone

Sitting under a full moon
Drinking with my dad tonight
Sitting under a full moon
Everythings gonna be alright

Now so many years have went bye
I still remember those days to my surprise
Times have changed and the car is gone
But wed still drink to the early morn
Until the other day when he passed away
For me yeah that was a real bad day
But he finally made his way home

Sitting under a full moon
Drinking with my dad tonight
Sitting under a full moon
Everythings gonna be alright

Sitting under a full moon
Drinking with my dad tonight
Sitting under a full moon
Everythings gonna be alright

Sitting under a full moon
Drinking with my dad tonight
Sitting under a full moon
Everythings gonna be alright

Sitting under a full moon
Drinking with my dad tonight
Sitting under a full moon
Everythings gonna be alright

Sitting under a full moon
Drinking with my dad tonight
Sitting under a full moon
Everythings gonna be alright
