

## Just for a night

The Bloody Irish Boys

Oh fare thee well my friend ill never see the likes of you again  
Give me one last kiss and well go our own ways  
Your far away from me ill remember you how about me  
Will I be in your mind or just the last in line

It was a cold December night  
Too much drinkin to get to feelin right  
But something felt wrong  
Thats when she came along  
Then I heard her say  
Hey tonight where you gonna stay  
I couldnt think I had no time  
Then she said tonight your mine

I had no choice but to leave with this girl  
It was just for a night but it changed my world  
It makes me wonder how life would be  
If I lived a life like she does she does  
she done fucked me

Later on the bar closed down  
Go with her or get stuck downtown  
She grabbed me by the arm  
Her eyes full of charm  
Then I heard her say  
Hey tonight your with me ok  
I couldnt think I had no time  
Then she said tonight your mine

I had no choice but to leave with this girl  
It was just for a night but it changed my world  
It makes me wonder how life would be  
If I lived a life like she does she does  
she done fucked me

Oh fare thee well my friend ill never see the likes of you again  
Give me one last kiss and well go our own ways  
Your far away from me ill remember you how about me  
Will I be in your mind or just the last in line

I had no choice but to leave with this girl  
It was just for a night but it changed my world
