

Beg Like A Dog

The Blue Van

Try to creep over and you won't get far I know what you're thinking, I know what a user you are

[Refrain]

Thank you for nothing now put on your jacket and walk You had your moment now listen to me when I talk I said get out, or get down and beg like a dog

High as a mountain, but dumb as a wall Handing out numbers, but no one will answer your call

Refrain

I was dying, trying to see in the dark I was dying, crying but your door was locked I got up, tough, roughed up But you gave me nothing, so put on your jacket and walk Or get down and beg like a dog

Refrain
