

Fame And Glory

The Blue Van

I've been up, I've been down I've been square, I've round I've been lost, I've been found And I've been sleeping around And you know it Though I don't show it

I've been under attack Stabbed in the back Hanging with Jack But now I'm on the right track For a moment Hope I don't blow it

I'll be dancing on the table And I hit the ground

I know it doesn't show But I'm about to blow And I hope you feel the same, man Cause I ain't gonna change that Time is moving slow Just get me to the show Still the same old story A quest for fame and glory

I've been first, I've been last Stuck in the past Moving too fast I've been having a blast for a moment Now I'm below it

I've been up, I've been beat Sticky and sweet Roaming the streets Just for something to eat I can show it Yes, I can show it

I'll be dancing on the table And I hit the ground

I know it doesn't show But I'm about to blow And I hope you feel the same, man Just take me to your main man Time is moving slow Just get me to the show Still the same old story / It's a bitter story A quest for fame and glory / The quest for fame and glory
