

# Sky Will Fall

The Bluetones

You refuse to leave the house  
Not chancing stepping out  
The air seems so unclean  
Away from judging eyes  
That seem to pierce the night  
You'd rather not be seen

Well I'm the same as you  
I like to stay here too  
Say you'll have me

Maybe the sky will fall  
And maybe kill us all  
Or just the very tall

And if your special needs  
Require a special means  
Could I help you see them through?

'Cause I'm the same as you  
I like to stay here too  
Say you'll have me, have me

Maybe the sky will fall  
And maybe kill us all  
Or just the very tall

If you can hear me let me in

Say you'll have me  
Have me

Maybe the sky will fall  
And maybe kill us all  
Or just the very tall

If you can hear me let me in
