

# Master Of The World

The Bolshoi

He's the master of the world  
With a shotgun and a string of pearls  
Says he couldn't care less  
Acts just like a princess  
Can't tell if he's a boy or a girl

He's the shiny golden one  
He's a supermodel's favorite fun  
He's brighter than a nova  
Romeo in clover  
He's finished when you've just begun

I seen him on a comets tail  
Waving to me as he sails  
Deeper into outer space  
He a hyperactive tracer  
Planetary racer  
He's the finest of the human  
Finest of the human race

He's the master of the world  
With a shotgun and a string of pearls  
He's going to walk to China, jump the Asia Minor  
He's bigger than the planet Earth

He's the lord of space and time  
And he's talking at the speed of light  
Well he's going to the sun  
Show him what he's done  
And then he's gonna pick a fight... well alright

I seen him on a comets tail  
Waving to me as he sails  
Deeper into outer space  
He a hyperactive tracer  
Planetary racer  
He's the finest of the human  
Finest of the human race

He's the master of the world  
With a shotgun and a string of pearls  
Says he couldn't care less  
Married to an heiress  
And now he is the Duke of Earl

I seen him on a comets tail  
Waving to me as he sails  
Deeper into outer space  
He a hyperactive tracer  
Planetary racer  
He's the finest of the human  
Finest of the human race

Racing through the stratosphere  
Surfing on the atmosphere  
A smile as bright as any star  
He's an interstellar traveler

Universe unraveler

He's gonna show us who we, gonna show us who we are

He's the master of the world

He's the master of the world

He's the master of the world
