

Far Beyond Me

The Bones

Nobody wanna talk to you?
It ain't you they are talking to, no no
Nobody wanna see your act?
You ain't acting like yourself, no
Do you think you've got it made
The thing is this that we all see through you
Everybody see how you act

You've got my education
Then you stole my reputation
When I see how you act, it's me that I'm looking at
Well I gave you medication
When you wanted consultation
When I see how you act, it's me that I'm looking at

The shitty little thing is this
That same people say you're alright now
Reveal yourself and be yourself
You ain't me and I ain't you...boy
I'm me. Who are you?
I can't stand to see the way you act
Find yourself and leave me be
I'm me! Who are you?
FUCK YOU!

You've got my education
Then you stole my reputation
When I see how you act, it's me that I'm looking at
Well I gave you medication
When you wanted consultation
When I see how you act, it's me that I'm looking at

You've got my education
Then you stole my reputation
