

# Hate

The Bones

I hate you and you hate me  
So take ride down with the awesome machine now  
Calling out to me the creep  
So come and join the joy with me

Can\'t you see that the life you live are on borrowed time from  
me  
Can\'t you see that the way you act  
Makes me hate you more than anything else

I\'ve had enough of this, kiss ass break down way to be  
I\'ve had enough of the games we play, well and the things that  
you say

Coming out like a switch bladed knife  
Couldn\'t care less, couldn\'t say anything else  
The more I give the more you want  
Calling out to meet the creep

So sick and tired of the walls we build up,  
The rules you put up  
Can\'t take this bullshit anymore  
No I can\'t, no I can\'t, no I won\'t
