

Troublebound

The Bones

Your world means nothing to me
Like a sewer rat in a busy street
I'm troublebound
A lethal dose of adrenaline
Spiked with gas and gallon of sin
I won't back down

No tomorrow so you say
It doesn't matter to me anyway
Dead or alive I'll pass you by
Another wet dream in my front seat, yeah
I'm everything you'll never be
I'm everything you need
You just wanna be like me

Whole lotta nothing in sight
Doing time behind the enemy lines
Well I'm troublebound
On a high fatality road
Buckle up we're getting close
cause I won't back down

No tomorrow so you say
It doesn't matter to me anyway
Dead or alive I'll pass you by
Another wet dream in my front seat, yeah
I'm everything you'll never be
I'm everything you need
You just wanna be like me

Well smoking, burning, messing around
My world is all too loud
I'm off track but I ain't down
Slow motion re-runs every day
But I won't use the brakes
I'm off track but that's my way

Whole lotta nothing in sight
Step aside or pay the price
Well I'm troublebound
