

## Leaves And Sand

The Boo Radleys

Greet the world with tired  
But something just ain't right  
Head of dust and leaves and sand  
Creeping past your window  
I can see the face of love and pain  
Behind your smile

Always the same  
Rub my eyes try and use my mind  
Dull jewel inactive fire  
Come to terms with things at hand  
Creeping past my window  
Swore you smelt self-loathing  
Feeling shame you raised your smile
