

(She's Gonna) Do You In

The Boomtown Rats

Watch out for your lady, watch out for her now
She ain't no lady, she's a stupid cow
She wears the trousers, she's got a tongue that stings
I know that woman
She's gonna do you in
She's gonna do you in
She's gonna do you in

She's high and mighty, she wears a crown of steel
She'll dominate you, she's got that special feel
She make you shiver, she'll make you reel and hell
I know that woman
She's gonna do you in
She's gonna do you in
She's gonna do you in
She's gonna do you in, right now

Don't tell her lies, she's gonna find you out
You love to whisper, y'know, y'know she loves...to SHOUT
Don't talk back to her, 'cause that's a mortal sin
I know that woman
She's gonna do you in
She's gonna do you in
She's gonna do you
She's gonna do you in
She's gonna do you
She's gonna do you in
She's gonna do us all in
In, do you in, do you in, do you in
She's gonna do you do you do you do you do you do you in
She's gonna do you in
