

Break Free

The BossHoss

If you wanna run away
You think you cannot stay
It seems like the easiest way

But the faster you run, the faster you're back
At the point where you started from

I said the faster you run, the faster you will be back
At the point where you started to run!

And you'll be running 'round in circles
Because the world is round
If you don't turn around and face it
You'll spin around like a merry-go-round
And the only way to break it
You gotta break free
Gotta break free

So stop your running
You won't gain nothing
You'll lose your way instead

Because the bright light of the sun's gonna be gone
And will be raisin' up behind your head

So the faster you run, the faster you're back
At the point where you've started from

And you'll be running 'round in circles
Because the world is round
If you don't turn around and face it
You'll spin around like a merry-go-round
And the only way to break it
You gotta break free
Gotta break free

And you'll be running 'round in circles
Because the world is round
If you don't turn around and face it
You'll spin around like a merry-go-round
And the only way to break it
You gotta break free

And you'll be running 'round in circles
Because the world is round
If you don't turn around and face it
You'll spin around like a merry-go-round
And the only way to break it
You gotta break free
Gotta break free
