

# Boogie Woogie Downtown

The Bouncing Souls

How did it come to this?  
Where did it all go wrong?  
Nothing seems to be what it used to be,  
And no one's happy

I lie awake at night  
This feeling just ain't right  
These words go round and round and round in my head  
Like a broken record

If this goes on much longer,  
I think I'm gonna explode

'Cause I don't wanna wait 'til tomorrow  
I wanna have it out right now  
Because if this thing is over,  
What's the point to drag it out?  
Let's put it in the ground

This takes up all my time  
I need to clear my mind  
We don't see things eye to eye anymore  
And it's just kinda beat

This is a tragedy  
Like watching bad TV  
This show plays on and on and on in my head  
I can't change the channel

If this goes on much longer,  
I think I'm gonna explode

'Cause I don't wanna wait 'til tomorrow  
I wanna have it out right now  
Because if this thing is over,  
What's the point to drag it out?  
Let's put it in the ground

Stop dragging it around  
It's bringing me down  
Well you won't leave it down

If this goes on much longer,  
I think I'm gonna explode

'Cause I don't wanna wait 'til tomorrow  
I wanna have it out right now  
Because if this thing is over,  
What's the point to drag it out?  
What's the point to drag it out?  
Let's put it in the ground
