

Dubs Says True

The Bouncing Souls

Hello again, my good friend
You have been there through it all
A strange face, in the dark
Do you know what you've done at all?

You say we have been there for you
In all the tough times of your life
Remember you have been there too
Greatest friends I've ever seen,
Know what I mean

We always will be true
We always will be true
Will be true

Incredible stories we have heard
Over the years, at all the shows
She changed her life, met his wife
Beautiful how it all goes

You say we have been there for you
In all the good times of your life
Remember you have been there too
Greatest friends I've ever seen,
Know what I mean

We always will be true
We always will be true

Never say goodbye to a friend
True 'till the end
Never say goodbye to a friend
True 'till the end

Thank you, my friend, once again
For reminding me that this should never end
You've inspired me again,
Know what I mean

We always will be true
We always will be true
We always will be true
We always will be true!
Will be true
Will be true

Will be true
