I'm from There

The Bouncing Souls

When we were two brothers forever through the dark and light We had our fights against the world, against each other We traveled in the night So many roads, so many shows together Far apart we grew, isolated but still together

When we were two brothers forever through the dark and light We had our fights against ourselves, against each other We were afraid, afraid of so many things It was a fight to overcome ourselves and see clearer

We are two brothers forever through the dark and light We had our fights against the world, against each other Time has opened my heart I don't want to hold on to that past

I don't want to live in isolation anymore

There's nothing left to do, but to kiss that life goodbye

Goodbye...
Goodbye...

We are two brothers forever through the dark and light We had our fights against ourselves, against each other There's nothing left to do, but to kiss that life goodbye

Goodbye...
