

Never Say Die/When You're Young

The Bouncing Souls

We're the ones they couldn't keep in line
Living like we know there is no time
You're the heart this world could not deny
Never Say Die
All the emptiness we felt inside
All the ways they try to take your pride
All of this we will defy
Never Say Die
Looking back for one last time
On a world of lies we left behind
Time has come for us to rise
Never Say Die
When you're young
Write your songs
Take your time
Stay strong
Hold on
Don't grow old
Hang onto your heart
Stay close to your soul
Hold on
Stand and Decide
Never Say Die
