

## Night on Earth

The Bouncing Souls

Passed some time on the stoop  
on the block were we used to sit  
I thought about it all too much  
I thought so hard I couldn't see  
Pete rode by on his Hutch

Passed some time on the stoop  
on the block were we used to sit  
I looked down and tied my shoes  
I thought about it all too much  
I looked up and then I knew

[Chorus:]

I guess these things were meant to be  
and there's no use fighting what's in me  
Night on earth (2x)

Passed some time walking around  
Looking for something to be  
When I stopped to look around  
All the music was different to me

All these places we used to go  
When I loved you I didn't see  
I'll miss you but now I'll know  
Better next time because I found me

[Chorus]
