

I'm on the outside looking in
That's where my story begins
Took the pain of growing up
And I walked on through
This is how I'm showing up
I feel great, how about you?

So here I stand out on my own
Myself, the only truth that I've known
Went through all the things I had to do
You know sometimes it stings, but
I feel great, how about you?
How about you?

Playing life just like a game
Good or bad it's all the same
Let the world know how I feel
And you know it's real
And you know I'm real
