

## Streetlight Serenade (To No One)

The Bouncing Souls

I'll sing this song to my bike  
And everything else that I like  
This goes out to my handlebars  
As I'm weaving through the cars

Well this is for my squirrel in the park  
And every dog that doesn't bark

This is a song about a ride  
And listening to what's inside  
I look at all the cars I pass  
I cruise myself in the glass
