

The Gold Song

The Bouncing Souls

I saw you from across the street today
My heart skipped a beat today
Reminding me of those lost days and glory never fades
Never fades, fades away

After years and miles my broken feet
Walked back to you on this broken street
I guess the years weren't blind 'cause the years just made you shine
Never fade, fade away

I heard someone say
that nothing gold can stay
But there's a love in all our souls
and it shines like gold
It shines like gold

I saw you from across the street today
My heart skipped a beat today
Reminding me of those lost days and glory never fades

Years passed by and you remind me
Those feelings will always find me
Young hearts are made of gold that never fades away
Never fade, fades away

I heard someone say
that nothing gold can stay
But there's a love in all our souls
and it shines like gold, gold

As the years pass by
A young heart beats inside
These dreams of yours and mine that time can't take away
Take away, take away

I heard someone say
that nothing gold can stay
But there's a love in all our souls
and it shines like gold

I heard someone say
that nothing gold can stay
But there's a love in all our souls
and it shines like gold
it shines like gold
it shines like gold
