

Wish Me Well (You Can Go to Hell)

The Bouncing Souls

I've got to be me, baby, and you gotta be you
Something isn't right but I know I love you
I only want what's best
I don't know, is this some kind of test
Yeah and you're failing, all we do is bicker

Say goodbye
Kiss my ass I hope you die
Wish me well
You can go to hell

We were so different a short time ago
Love is suppose to make us happy, supposed to make us grow
But I just wanna punch you in the face
I love you, I guess needed the space
Oh well another time and another place

Say goodbye
Kiss my ass I hope you die
Wish me well
You can go to hell

Say goodbye
Kiss my ass I hope you die
Wish me well
You can go to hell
