

The Gospel Of Goro Adachi

The Boxer Rebellion

Breached in straight lines, asked to stop
Tunnel vision wasted up

We got lost and found ourselves surrounded by things
They're getting closer
All around us blinding lights began to set fire
to our minds

Long directions mixing up
Points of reference bound and stuck
Talks to nothing falls apart
Constant questions from the start

We got lost and found ourselves surrounded by things
They're getting closer
All around us blinding lights began to set fire
to our minds

I don't want, I, I don't want
I don't want, to be myself
I don't want, I, I don't want
I don't want, to be myself

I don't want, I, I don't want
I don't want, to be myself
I don't want, I, I don't want
I don't want, to be myself

Whats done is done
Whats done is done to me
Whats done is done
Whats done is done because

We got lost and found ourselves surrounded by things
They're getting closer
All around us blinding lights began to set fire
to our minds
