

People Giving Love

The Brand New Heavies

People are we givin' love
Love all the time
People are we givin' love
We need to survive

I wonder why we seldom try
To tell the truth but we welcome lies
Every sister and brother knows
What is wrong and what is right

Everyone under the sun
Must live in this big world
Hand in hand we'll save the land
For all our boys and girls

People are we givin' love
Love all the time
People are we givin' love
We need to survive

Tell me how do you feel inside
Do you let love come alive
See just how happy we could be
Livin' peacefully in harmony

Everyone under the sun
Must live in this big world
Hand in hand we'll save the land
For all our boys and girls

People are we givin' love
Love all the time
People are we givin' love
We need to survive

People are we
We givin' love
People are we
We gettin' love

People are we
We givin' love
People are we
We gettin' love
