

# World Keeps Spinning

The Brand New Heavies

The world keeps on spinning  
The world keeps on spinning, yeah  
World keeps on spinning  
The worlds keeps on spinning, yeah

Hey now, I know you're gonna be okay  
Time keeps on changing  
But I know we're gonna win anyway  
Oh, how I've done you wrong, there ain't a thing  
That I can say to you to make it better  
Sometimes we must be strong, you know  
That life goes on for us if we cannot be together

Don't cheat yourself, happiness is 'round the corner  
It will come to you, so have faith in future love  
'Coz there's heaven up above when we think  
We've reached the end the world keeps on spinning

Hey, you know that time can be a healer, so they say  
We mustn't be afraid to let our lonely nights become a brand new day  
Oh, how I've done you wrong, I couldn't offer you a hope  
Or find a better way, this time we must be strong  
Our friendship lasts beyond all else, don't let it fade away  
Don't let it fade away
