

# You Are The Universe

The Brand New Heavies

You're the future, and you've come for what is yours  
The hidden treasure, locked behind the hidden doors  
And the promise of a day that's shiny new  
Only a dreamer, could afford this point of view  
But you're a driver, not a passenger in life  
And if you're ready, you won't have to try 'cause

You are the Universe  
And there ain't nothin' you can't do  
If you conceive it, you can achieve it  
That's why, I believe in you, yes I do

You're a winner, so do what you came here for  
The secret weapon, isn't secret anymore  
You're a driver, never passenger in life  
And when you're ready, you won't have to try 'cause

You are the Universe  
And there ain't nothin' you can't do  
If you conceive it, you can achieve it  
That's why, I believe in you, yes I do

You are the Universe  
And there ain't nothin' you can't be  
If you conceive it, you can achieve it  
That's why, I believe in you, and I believe in me

(Yes I do  
Believe in you  
I do)

You're a driver, not a passenger in life  
And when you're ready, you won't have to try 'cause

You are the Universe.
