

# I Just Wanna Get Along

The Breeders

We were rich once  
Before your head exploded  
Imagine doing just what the Big Bang did  
The whole world  
Knew it was loaded  
Wave bye-bye 'cause it ain't ever coming down now

I just wanna get along [x2]

I look up  
The heads fly over  
I see a boy I know: his hair's on fire  
The whole world I discovered  
If you're so special why aren't you dead

I just wanna get along [x3]

Wave bye-bye 'cause it ain't never coming down now

I just wanna get along [x3]
